

J-AZ[®]

CLOISON 40 mm
SANS STRUCTURE
40-MM PARTITION
WITHOUT STRUCTURE

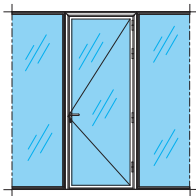

J-AZ[®]

J-AZ[®], la cloison verre bord à bord J-AZ[®], the Edge-to-Edge Glass Partition

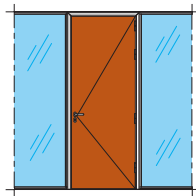

La structure minimaliste de 40 mm d'épaisseur, support de panneaux de verre bord à bord est le point fort de la gamme J-AZ[®]. Le design des portes cadre aluminium, la finesse des huisseries et un choix de looks carré ou rond renforcent le positionnement tendance de cette gamme.

The minimalistic 40-mm structure supporting edge-to-edge glass panels is the strong point of the J-AZ[®] range. The look of the aluminium door, the slim doorframes and the choice between round or square finish add to the contemporary character of the system.

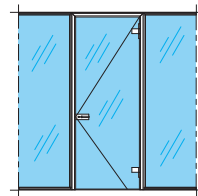

Applications classiques / Classic Applications

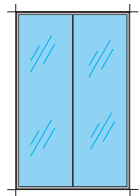

➤ Porte aluminium
Aluminium door

➤ Porte bois
Wooden door

➤ Porte verre
Glass door

➤ Vitré toute hauteur look carré
Full-height glazed square

QUARTZ[®]

CLOISON VERRE
GLASS PARTITION

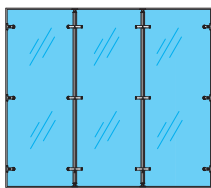

QUARTZ[®]

QUARTZ[®], la cloison en verre agrafé QUARTZ[®], the Point-Fixed Glass Partition

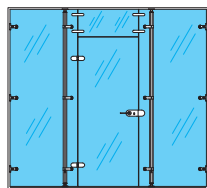

Encore plus minimaliste, ce concept basé sur la technique du verre agrafé apporte encore plus de transparence. Conçue comme un « paravent », cette cloison peut être support de communication et de signalétique.

This even more minimalistic design is based upon the point-fixed glass technique and offers total transparency. This partition works as a room divider and may be used as a support for communication or signage.

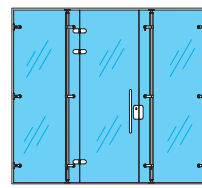

Applications classiques / Classic Applications

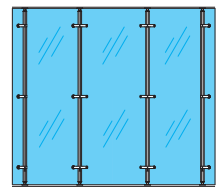

➤ Entre mur
Between walls

➤ Porte imposte
Door with overpanel

➤ Porte toute hauteur
Full-height door

➤ Séparation d'espaces
